Assalamu alaikum warahamatullahi ta'ala wabarakatuhu.

On behalf of the people of Dala Local Government and Kano State in general sincerely appreciate the gesture and the effort showered on us and our young generation.

Provision of books from different fields of learning in a school like this College which is one of the oldest schools in the State and country in general, could not be over emphasized. This has come in line with the efforts both at the State and the Local Government in putting towards the development of education in the State.

As the State is offering a policy of free female education, this donation came up at the right time to go in line with the policy. I will therefore call upon other non-governmental organizations to copy from the Embassy this important gesture, so as to develop the educational standard of the children in the State and the nation in general.

We hope this visit will open ways to more assistance in the field of technology and modern system of learning and infrastructural materials in the school, since the Ambassador is here to see things for himself.

We wish you safe journey back to your various destinations.
